<b>NORMAL</b>	2 weeks	1 month	6-12 months	4 months	6 months	3-6 months	3-6 months	6-12 months	1 month	3-6 months
<b>DUSTY/ HIGH TRAFFIC</b>	1 week	1 month	2-4 months	2 months	1-2 months	1 month	1-4 months	2-6 months	1 week	1 month

**Dome Cleaning, Inc. recommends the use of Carpet Protectant in high traffic areas.** Carpet protectant helps prolong the life of your carpet by creating a protective barrier around the carpet fibers, much like Teflon on a pan. It makes vacuuming more effective, and helps give you more time to clean up spills before stains become damage. Carpet protectant should be reapplied after each professional cleaning service. **Call us today at (415) 442-0766 to schedule a free estimate!**
